

5G-ACIA 2nd Web Seminar Series

Join and get insides about the 5G integration with important operational technologies and requirements, such as Time-Sensitive Networks (TSN), Digital Twin, Security and 5G capabilities for Industry4.0

The fourth stage of the industrial revolution, also known as smart manufacturing, heralds an entirely new era. Its goal is to significantly improve the flexibility, versatility, usability and efficiency of production systems and to make the vision of smart factories come true. In this context, wireless communication – in particular 5G – is a key enabler. It provides powerful and pervasive communication between machines, people and objects.

5G-ACIA's mission is to ensure the best possible application of 5G technology and of 5G networks for the industrial domain. Join this 5G-ACIA Web Seminar to explore how 5G-ACIA is working on the framework design for Industrial 5G and ask your questions to the experts from 5G-ACIA.

Date	Торіс	Speaker
May 26th 2021 14:00-15:00 (CEST)	Industrial 5G - Where are we?	Dr. Andreas Mueller (Bosch) Dr. Afif Osseiran (Ericsson)
June 17th 2021 14:00-15:00 (CEST)	Integration of 5G with Time-Sensitive Networking for Industrial Communications	Kun Wang (Ericsson) Lukas Wüsteney (Hirschmann/Belden) Dietmar Bruckner (ABB)
July 14th 2021 14:00-15:00 (CEST)	Using Digital Twins to integrate 5G into Production Networks	Josef Eichinger (Huawei) Bernd Kaercher (Festo)
September 13th 2021 14:00-15:00 (CEST)	5G Services Operated by Industrial Applications	Kurt Essigmann (Ericsson) Joachim Walewski (Siemens)

5G-ACIA Web Seminar Program

Registration

Please register online: www.5g-acia.org/events/webinars/ The web seminars are free of charge. We look forward to meeting you!
