

Industrial 5G Day

Date:

May 11th, 2023

Time:

Registration: 8:00 am - 9:00 am Event: 9:00 am - 6:00 pm Get together: 6:00 pm - 7:00 pm

Venue:

Akasaka Intercity Conference Center 3F and 4F Akasaka Intercity AIR 1-8-1 Akasaka Minatoku Tokyo 107-0052 Japan

How to get there:

https://aicc.tokyo/en/access/

In cooperation with

Industrial 5G is here

The Industrial Internet of Things (IoT) is undergoing a transformation based on technologies such as machine learning, digital twin, XR, and collaborative robots that will enable benefits such as flexible manufacturing, predictive maintenance, and higher efficiencies in general. 5G will take this transformation to the next level towards a wireless factory of the future.

Already today, we see a significant pickup of 5G technology in Industrial IoT: Demos, Trials, large-scale evaluation, private 5G networks, integration of 5G in industrial devices, commercial products all around Industrial 5G.

To help interested parties to get a good overview of these areas, SG-ACIA – the leading international organization for driving and shaping SG in connected industries – is excited to invite you to its first "Industrial SG Day" in Japan.

Learn how 5G is getting deployed in industrial use cases

Attendees will learn about key features of Industrial 5G, findings of Industrial 5G trials and testbeds, lessons learned in first deployments, how to use 5G in specific industrial use cases, integration with legacy industrial ethernet and many more hands-on aspects. Beyond that, the participants will also get an overview of the next steps in Industrial 5G technology.

The Industrial SG Day is focusing on providing experts and decision-makers in industrial automation and digital transformation a solid basis for understanding the potential of Industrial SG.

Demos and Show Cases

The Industrial 5G Day will be accompanied by a set of demos and show cases on how to use 5G for industrial use cases.

Members of 5G-ACIA will share their experience with demos, trials and first deployments of Industrial 5G. Direct contacts to solution providers and experts on Industrial 5G can be established.

Target Audience

Experts & decision-makers from the following groups: Potential users of Industrial 5G, OT equipment and network vendors, companies building and/or operating 5G networks for the industry, vendors for industrial equipment interested in evaluating the integration of 5G, vendors offering industry automation and communication solutions, players in adjacent ecosystems.

Language

English-Japanese Simultaneous Interpretation

Get Together Party

After the main part of Industrial 5G Day, we invite you to join the Get Together Party for networking and matchmaking. Beverage will be provided.

Agenda

The agenda is organized into 3 parts. Details of the program will be shared shortly.

Part I: Opening session

- Welcome
- 5G-ACIA Overview (5G-ACIA leadership)
- Keynote from Ministry of Internal Affairs and Communications (MIC)
- Keynote from The Fifth Generation Mobile Communication Promotion Forum (5GMF)
- Keynote from Flexible Factory Partner Alliance (FFPA)

Part II: Industrial 5G Today

- State of play of Industrial 5G
- Industrial 5G proof of concepts, trials, evaluation, early deployments
- Where 5G is already being used and tested in industry today

Part III: Value & Outlook

- Accomplishments of 5G-ACIA, value for members
- What are the next steps for Industrial 5G
- Future enablers to strengthen this emerging market

Registration

Please register online until April 25th 2023

https://event-5g-acia.zvei.org/#/events/977b3baa-ccb9-46b7-af01-d035526e1aac/register/new

The entire event is free of charge. We look forward to meeting you!

See you in Tokyo!

If you have any questions in connection with your visit to the event, please don't hesitate to contact us!
